## Certificate Course Template: Easy Steps to Transition to Remote Learning

To streamline our remote delivery of Certificate courses, the following are basic D2L functions we can use in our shells to help set participants up for success.

1. Add a News post to the course home page.

2. In the Content section, add any new modules titled "REMOTE DELIVERY" so participants can easily distinguish what is to be done online. Add any materials such as PowerPoints (I upload them as pdfs,) links, resources, other materials. Include Directions for participants to work through.

Meeting Date: March 18, 2020

The Scholarship of Teaching and Learning (SoTL) Foundations Program for Postdocs and Graduate students invites participants across all disciplines interested in SoTL to join us for our fourth discussion-based session, Guiding Principles in SoTL.

As in all sessions, we will take some time to become acquainted, to discuss/review what SoTL is, and to reflect upon the session's reading as foundational to SoTL research and practice.

We will be discussing Peter Felten's (2013), "Principles of good practice in SoTL." In this piece, Felten articulates principles that can be used as guideposts for developing and refining both small and larger scale SoTL projects. Felten maintains that they can help to "clarify and demystify SoTL" and can "serve as a heuristic for assessing work" in the field (p. 121). In this fourth session, we will consider our SoTL planning in light of these principles of good practice.

Session four's reading is:

Felten, P. (2013). Principles of good practice in SoTL. *Teaching and Learning Inquiry: The ISSOTL Journal, 1*(1), 121-125.

Directions:

1. Read the Article

2. Review the Power Point Discussion Questions

3. Review the Taylor Institute's Grant Applications

4. Submit your Reflection to the Discussion Board by Friday, March 20, 11:30pm.

3. I am choosing to make my assessment simple and concise considering the large number of participants in my SoTL Foundations courses. I will use a Reflection / Discussion question that the participants must submit an answer to on the Discussion Board within 48 hours. After the deadline (see next section on how to set up restrictions) I will review the discussion posts and cross-check who submitted and did not submit, and provide Andrew a list of those who completed so course credit can be awarded.

Title *

SoTL Inquiry Focused or

Description

In Felton's (2013) *Principles of Good Practice*, he suggests that inquiry should be focused on student learning. Using information from the case study (Power Point, slide 11) please answer the following question (approximately 250 words:)

Examine Joan's proposed issue, research question and project goals. How is this tied to student learning / teaching practice
