Questions for reflection

1. What does it mean to be a good teacher, educational leader or staff member in a university context? What does this mean in my particular discipline?

2. Who or what has most informed my beliefs about teaching and learning or my practices in my discipline?

3. What strategies do I use in my role? What do these say about my beliefs?

4. What 2-3 key beliefs do I hold about my practice and how it relates to student learning? What matters most to me?
Philosophy Statement

A one (1) page reflective statement that describes:

• **What** your fundamental values and beliefs are
• **Why** you hold these values and beliefs
• **How** you translate these values and beliefs into practice
What are some of the ways (informal and formal) that we might evaluate teaching?
The Dossier

A concise summary of philosophy, experiences, approaches, accomplishments, and effectiveness that includes clearly aligned evidence of the scope and quality of your practice. Demonstrates a commitment to continuous growth and improvement.

• What do these data say about your strengths and future areas for growth?
• What have you learned from these data?
