

Award for Full-Time Academic Staff

The University of Calgary Teaching Awards recognize excellence in varied learning contexts by individuals and teams. A University of Calgary Teaching Award is a distinguished honour for members of our university community who, through their commitment and expertise, create deep and lasting learning experiences.

1.0 Eligibility

The University of Calgary Teaching Award for Full-Time Academic Staff recognizes the teaching excellence of full-time, individual colleagues on Continuing, Contingent and Limited-Term appointments.

Nominees must have three or more years' teaching experience at the University of Calgary as a full-time academic staff member. There will be one award available annually to a colleague in each of the following ranks:

- Assistant Professor (Teaching)
- Associate Professor (Teaching)
- Professor (Teaching)
- Assistant Professor
- Associate Professor
- Professor

No individual may receive the University of Calgary Teaching Award for Full-Time Academic Staff more than once at a particular rank, or in two subsequent years at different ranks. Not all awards will be conferred each year, depending on whether qualifying nominations are received.

2.0 Award Criteria

Teaching excellence at the University of Calgary is exemplified by characteristics of scholarly teaching that cross teaching and learning contexts. The University of Calgary Teaching Award for Full-Time Academic Staff recognizes outstanding contributions to student learning by individual academic staff. Although there will be many ways in which individual teachers demonstrate these qualities, nominations will be assessed based on evidence of the nominee's demonstrated ability to:

- Motivate students' interest and learning, and establish relevance of subject matter.
- Set clear goals and expectations for learning in courses and individual learning activities.
- Design learning experiences that actively engage students, and encourage collaboration.
- Challenge learners to develop their critical thinking and independent learning abilities.
- Design student assessment strategies that enhance learning, and are appropriately aligned with intended learning.

- Design strategies to facilitate feedback (e.g. instructor, self, and/or peer) on students' learning to motivate and support progressive learning and growth.
- Exhibit respect for students, which includes showing interest in students' inquiries and ideas.
- Collect feedback, engage in professional learning activities, and reflect on teaching, in order to strengthen their teaching practices and improve student learning.

3.0 Nomination Package

The nomination should be coordinated between the nominator(s) and the nominee. Nominations may be submitted by up to three nominators, who may include any combination of former students, faculty and/or instructor colleagues or academic administrators, and ideally across groups.

The nomination package should include:

- A brief nomination letter (2-page maximum) outlining how the nominee meets the award criteria. Contributed by an individual nominator, or co-written by nominators;
- A nomination dossier (10-page maximum, excluding letters of support); and
- A cover page verifying that the nominee meets all eligibility requirements and that all recommended nomination components have been included in the submission.

3.1 Nomination Letter

A nomination letter outlining how the nominee meets (or exceeds) the award criteria may be contributed by an individual nominator or be co-written by 2-3 nominators. A co-written nomination will in no way disadvantage a nominee. Nomination letters are not included in the dossier page count; the letter should be a maximum of two pages.

Guidance on writing effective nomination letters is available through the Taylor Institute for Teaching and Learning.

3.2 Nomination Dossier

Teaching excellence is a multidimensional and complex task that required multiple sources of evidence that can be triangulated to produce a robust assessment. While the quality of evidence is a critical aspect of a strong nomination, so is the alignment across data sources. Support for creating a nomination package is available through the Taylor Institute for Teaching and Learning.

Your nomination dossier should be a **maximum of 10 pages** (excluding letters of support):

- **Teaching philosophy statement (1-page)**
The teaching philosophy statement explains the rationale that guides your practice, and provides information about your context, approaches and contributions.

- **Descriptions of specific strategies**

You should provide description of specific strategies you use in your teaching practice and include some indication of impact on learning.

- **Summary of data from student feedback**

A summary of data from student feedback and representative samples of student comments received across multiple learning contexts and years. It is recognized that these data may not be available or appropriate, depending upon the learning context (e.g., in small class sizes or in courses with sections taught by multiple instructors).

- **Reflective summary statement**

A brief reflection and summary of information included in your dossier to put it in context, highlight how they connect to your teaching philosophy and practices, and identify future areas for growth.

3.3 Letters of support

Two signed letters of support that complement and align with the nomination dossier and provide further evidence of impact.

4.0 Adjudication Process

The selection process for each of the university-level teaching awards will be similar. Administrative processes surrounding communication, nomination and selection processes will be coordinated through the Taylor Institute for Teaching and Learning.

A committee, chaired by the Vice-Provost Teaching and Learning (or delegate) and consisting of two academic staff members, two students (undergraduate and/or graduate), and a support (AUPE) staff, management or professional staff (MaPS) or postdoctoral scholar representative, will adjudicate the nomination files. The committee will be guided in its adjudication through consensus-based discussion with reference to the criteria for the award.

5.0 Recognition

Recipients will be presented with their awards at the Celebration of Teaching event. Their successes will be celebrated on the Wall of Honour in the Taylor Institute for Teaching and Learning.

Award recipients will be invited (but not required) to join the University of Calgary Teaching Academy, from which honorees can volunteer to share their expertise through mentoring, facilitating educational development activities, or implementing initiatives of their own design.
